

## Am Willing to Prove I Can Cure You

### To That End I Am Giving Away \$10,000 Worth of Medicine

In order to show beyond all doubt that I am in possession of a medicine that will cure kidney trouble, bladder trouble or rheumatism, I will this year give away ten thousand dollars' worth of this medicine, and anyone suffering from these diseases can get a box of it absolutely free. All that is necessary is to send me your address.

I don't mean that you are to use a part of it or all of it and pay me if cured. I mean that I will send you a box of this medicine absolutely free of charge, a gift from me to the Uric Acid sufferers of the world, so I can show them where and how they may be cured. I will not expect payment for this free medicine, nor would I accept it now or later if you sent it. It is free in the real meaning of the word.

For twenty-five years—a quarter of a century—I have been trying to convince the public that I have something genuine, something better than others have for the cure of stubborn, chronic rheumatism, for torturing kidney backache, for annoying calls to urinate. But it is hard to convince people—they try a few things unsuccessfully and give up all hope and refuse to listen to anyone thereafter. Happily, I am in a position now to demonstrate to sufferers at my own expense that I have a medicine that cures these diseases. I don't ask them to spend any money to find out; I don't ask them to believe me, nor even to take the medicine if they allow me to send them the medicine at my own cost. That is surely fair.

To this end I have set aside ten thousand dollars, which will be used to compound my medicine. Much of it is ready now to be sent out, all of it fresh and standard. There will be enough for all sufferers, though there be thousands of them. And anyone who needs it can get some of it free. Put in order that I shall know that you have a disease for which this medicine is intended, I ask you to send me some of your leading symptoms. If you have any of the symptoms in the list printed here you need my medicine and if you will write me I will gladly send you a box of it free with full directions for your use. Look the symptoms over, see which symptoms you have, then write me about as follows: "Dear Dr. T. Frank Lynott, 4924 Occidental Building, Chicago, Ill.

The ten thousand dollars I am spending for the compounding of my medicine is only a part of the money I am devoting to this cause, for the package of medicine I send you will be fully prepaid at my expense. From any standpoint you view it, YOU incur no expense or obligation. Just tell others who you know are suffering who sent you the medicine that cured you. I am promising to give away ten thousand dollars' worth of medicine, and I will do that. I am promising to send any sufferer who writes me a box of this medicine and full directions free of charge, and I will do that. I can

DR. T. FRANK LYNOTT who is giving away \$10,000 worth of medicine.

say further that this medicine has been vouched for according to law as complying in every detail with all requirements. It will stop rheumatism, it will stop pain and backache, it will stop too frequent desire to urinate; it will heal, soothe and strengthen. You will be better in every way for having taken it. There is not an ingredient that can injure, not one but will benefit. All that I ask is that you use it yourself so that you may be personally convinced.

Owing to the large number of requests, I have had ten thousand more copies of my medical book printed. This book is new and up to date and contains complete descriptions, symptoms, causes, effects and cures of kidney, bladder and rheumatic diseases. All who write for the free medicine will be sent a copy of this grand illustrated medical book—the largest ever written on these diseases for free and general distribution.

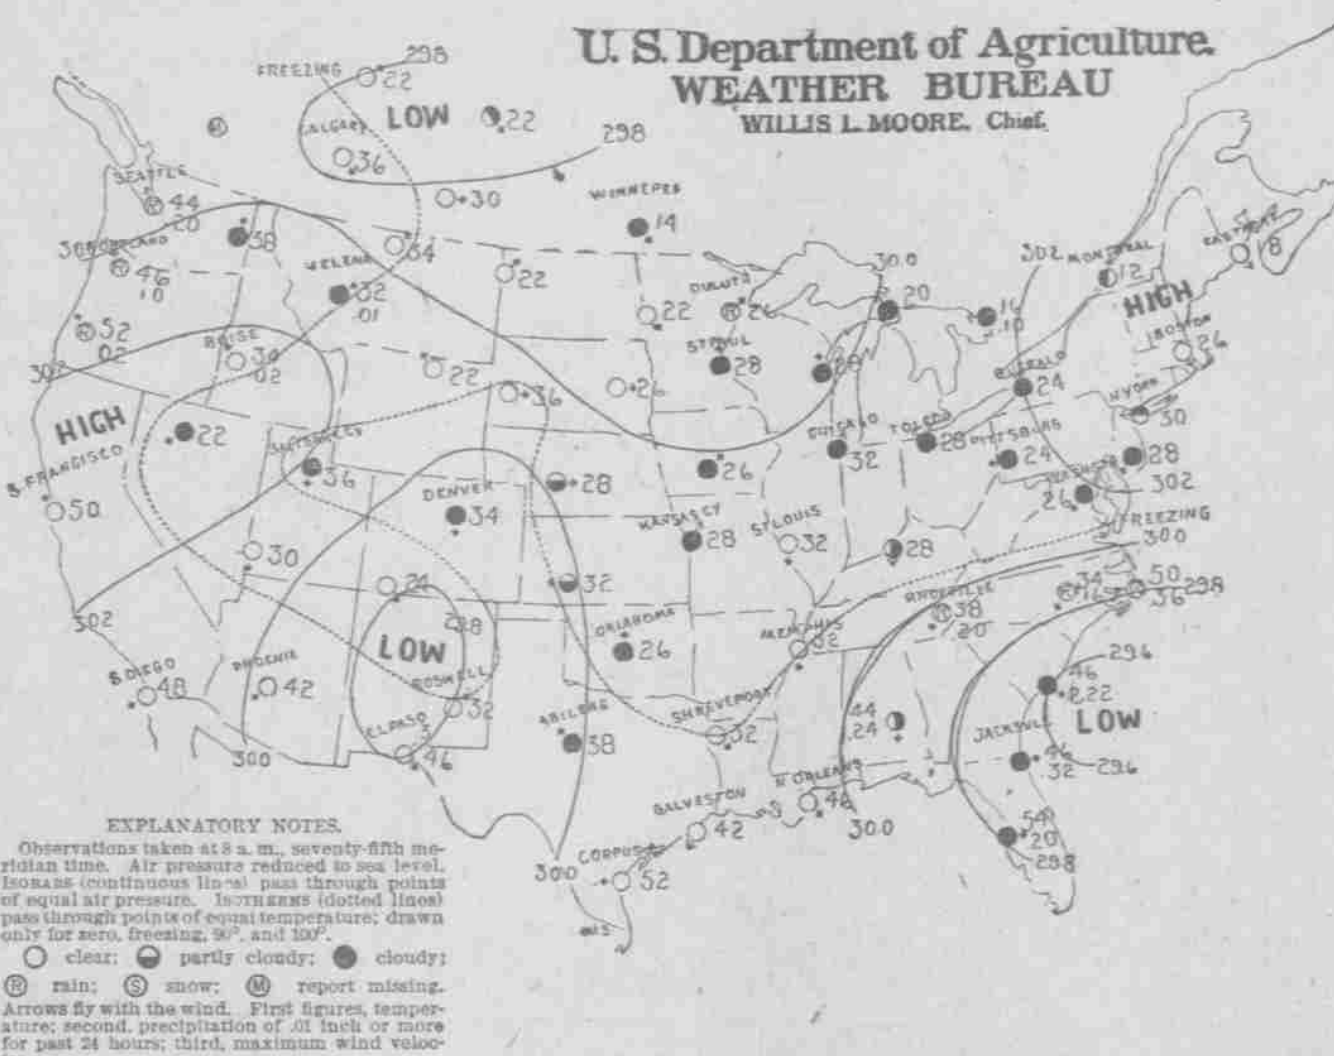

If you need medicine such as I have, if you are anxious to be cured and don't want to spend any money, LOOKING for cures, write me. Read the symptoms over and let me hear from you today.

#### These Are the Symptoms:

- 1—Pain in the back.
- 2—Too frequent desire to urinate.
- 3—Burning or obstruction of urine.
- 4—Pain or soreness in the bladder.
- 5—Prostatic trouble.
- 6—Pain or soreness in the stomach.
- 7—General debility, weakness, dizziness.
- 8—Pain or soreness under right rib.
- 9—Swelling in any part of the body.
- 10—Constipation or liver trouble.
- 11—Painful or painful under the heart.
- 12—Pain in the hip joint.
- 13—Pain in the neck or head.
- 14—Pain or soreness in the kidneys.
- 15—Pain or swelling of the joints.
- 16—Pain or swelling of the muscles.
- 17—Pain and soreness in nerves.
- 18—Acute or chronic rheumatism.

the entire country, the decrease was from 114 cases for 1910 to 81 for 1911.

**P. S. HILL SUCCEEDS DUKE AS TOBACCO COMPANY HEAD**  
New York, N. Y., Feb. 15.—Percival S. Hill was today elected president of the American Tobacco Company, to succeed James B. Duke, whose resignation was accepted at a meeting of the board of directors of the company. The following vice presidents were elected: E. S. Edwards, B. J. Hanlon, George W. Hill, M. C. Patterson and L. V. Yulie.

El Paso, Thursday, Feb. 15, 1912.

**Forecast.**  
El Paso and vicinity: Fair tonight and Friday; colder Friday.  
New Mexico: Tonight and Friday generally fair, except local snow north-east portion tonight; not much change in temperature.  
West Texas: Tonight fair, warmer in southeast portion; Friday fair, colder except in southeast portion.

**Weather Notes.**  
Observations taken at 8 a. m., seventy-fifth meridian time. Air pressure reduced to sea level. Isotherms (continuous lines) pass through points of equal air pressure. Isotherms (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 50°, and 100°.

**Barometer (sea level)** ... 29.78  
**Dry thermometer** ... 45  
**Wet thermometer** ... 33  
**Dew point** ... 12  
**Relative humidity** ... 32  
**Direction of wind** ... N.W.

**Rainfall last 24 hours** ... 0  
**High temp. last 24 hours** ... 69  
**Low temp. last 24 hours** ... 44

**WILL FIGHT SALOONS WITH COFFEE HOUSES**  
A coffee house as a substitute for the saloon where a workman can spend his evenings, is under consideration by the local branch of the W. C. T. U. Plans for the immediate establishing of an experimental coffee house will be arranged at the meeting Friday afternoon at 3 o'clock, in the Y. W. C. A. rooms at the Calhoun building. A program of music and an address by Dr. Ida Bishop will be given.

Following the business meeting, refreshments will be served by the president, Mrs. J. A. Potter.

### BUSY TIMES AT THE CUSTOM HOUSE

#### Mexican Hats, Mexican Cattle and Mexican Ores Imported.

Hats, household goods, bullion and beefsteaks on the hoof kept the custom house clerks busy Wednesday.

A half carload—10 tons, 171 dozen, or 2052—Mexican straw hats were imported by Henry Beach Wednesday. The hats were the annual consignment to supply the summer resort patrons with beach hats. The shipment missed the insurrection trouble by the breadth of a goat's whisker and arrived safely in the El Paso custom house from the interior of Mexico. A similar shipment last year was confiscated by the rebels.

The bullion shipment contained \$55,115 worth of lead bullion consigned to the American Smelting and Refining company at Chicago.

A herd of cattle is being driven on foot from the ranches of northern Chihuahua, and will be crossed below El Paso for the local markets. This will be the first shipment of cattle since the trouble started in Chihuahua, as the Mexico North Western has been out of commission and shippers have been afraid to send cattle over the National road because of the rebel activity along the line.

### FARMING

## BIG IRRIGATION PLAN IN SONORA

Rapid Completion of Yaqui River Undertaking. Farm Land Active.

Guaymas, Sonora, Mexico, Feb. 15.—Within the next six months it is expected that the large dam now under construction by the Richardson Construction company will be completed. This dam will furnish water to irrigate 800,000 acres of land, which will bring many homesteaders into the Yaqui valley.

Mr. Elliott, of Esperanza, is in the city. Mr. Elliott states that he has recently sold to Don Jesus Antonio Parada of Hermosillo, 1000 acres of land in the Yaqui river valley, for a consideration of something like 100,000 pesos. This land is under the Yaqui river irrigation system, and represents some of the best agricultural land in the valley. It is reported that Mr. Parada has harvested 18,000 pesos worth of garbanzo from adjacent land last year, and it is thought to be his intention to put the greater part of this lately purchased tract into garbanzo this season. Emory Singletary, president of the Sonora Land company, with headquarters in Esperanza, recently returned from San Jose, Cal. The Sonora Land company is farming 2000 acres of land in the Yaqui valley. Harry Griggs, the manager for this concern, states that his rice crop this season has returned an average of 80 bushels to the acre. This crop was produced on block 33, with only four acre feet of water. With the introduction of the proper rice hulling machinery, the raising of this commodity for food purposes will become one of the staple industries of the west coast.

The C. N. Wooster Realty company, of Hermosillo, has recently sold a tract of land to a couple of men from California, who are looking into the orange possibilities in that section.

C. A. Morgan has 2000 acres of land in cultivation, planted principally in wheat, garbanzo and corn. This tract of land is about 20 miles west of Hermosillo. Mr. Morgan estimates that his wheat crop this year will average 50 bushels per acre.

George E. Davis and his brother, F. E. of the International Investment company, Los Angeles, leave tomorrow morning for Esperanza. They are making a thorough examination of the entire west coast, and expect to visit Mexico City before returning to the States. They are both much pleased with the opportunities that present themselves here, especially with plans that contemplate the storing of water for irrigation purposes, and as an aid to the dry farming proposition. George E. Davis said that around Hermosillo he visited land upon which no rain had fallen since last October, that was yielding crops that would produce a net profit of from \$25 to \$50 gold per acre.

### RAISES 64 BUSHELS OATS TO THE ACRE

#### Plainview Man Finds Crop Profitable; Farmers Are Busy.

Plainview, Tex., Feb. 15.—Chas. Sailing, who farms and ranches in Hale county, south of Plainview, has just completed threshing his oat crop for 1911. He had in 80 acres and reports an average yield of 64 bushels to the acre. He sold a large portion of his crop for seed, at \$1.00 per bushel, and the remainder for feed at an average price of 55 cents per bushel. The crop was raised without the aid of irrigation. Mr. Sailing claims that oats raised for feed are the most profitable Plains crops.

The farmers of the Plainview country are very busy sowing oats and spring wheat. The soil is in perfect condition, and a much larger acreage will be put in than ever before, a large portion of raw land being broken. On account of the open weather, which has maintained for the past month, the winter wheat is beginning to look ambitious, and the chances for a large yield from it were never better.

### IOWA MEN TO TRY FLAX AT STRATFORD

#### Plan to Put in 600 Acres as an Experiment in That Section.

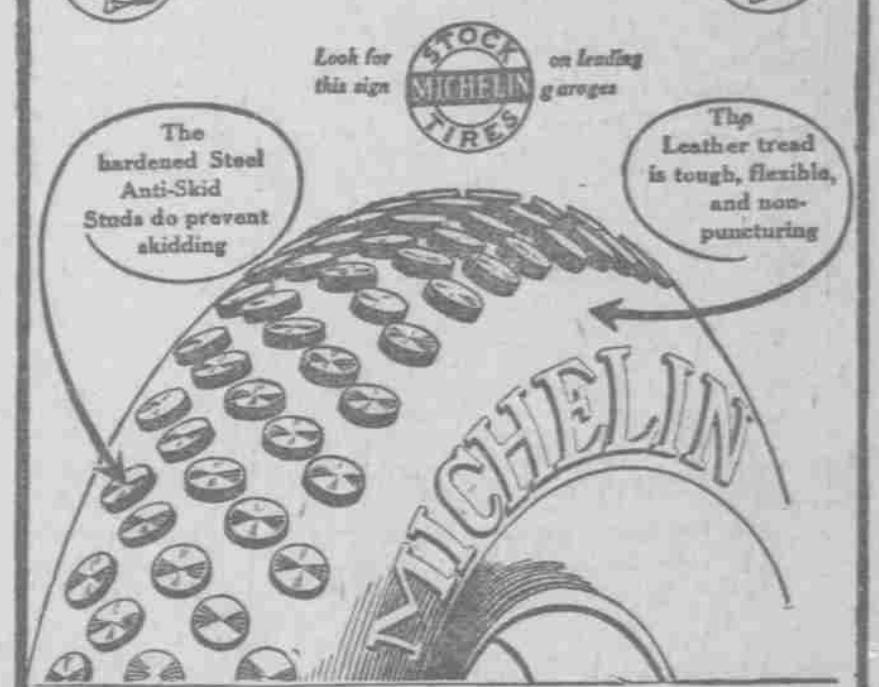

Stratford, Tex., Feb. 15.—S. J. Chester and C. W. Thowbridge, of Fairfield, Iowa, who own land near here have contracted with parties to plant 600 acres of flax on their land southwest of Stratford. Mr. Thowbridge is here this week and started men and teams to breaking the sod and getting the ground in condition. Flax has never before been planted here except as an experimental proposition, but Messrs. Chester and Thowbridge are confident the crop will prove a success. It is a drought resister and does well on sod land where it not only makes a good crop but serves to take the wild nature out of the soil.

### PORTALES FORMS A MELON ASSOCIATION

#### Portales, N. M., Feb. 15.—Farmers here have organized a strong Cana-

loupes Growers association, with already 100 acres of land set aside for the growing of cantaloupes, with assurance that this acreage will be doubled. They are now negotiating with commission houses in the east with a view of securing the very best market for the crop. This industry bids fair to be a very remunerative one, since it is a well known fact that cantaloupes can be grown in great abundance here that are equal in flavor to any in the United States, not excepting the famous Rocky Ford melons of Colorado.

### MUCH ALFALFA WILL BE PLANTED AT CLINT

Clint, Tex., Feb. 15.—Spring seeding has commenced and many acres of alfalfa will be planted in this section, the acreage of which while large will not be as heavy as last year, some oats and barley will be sowed, and spring work of all kinds will proceed much earlier than usual on account of the water being turned into the ditches so soon.

J. G. Williamson has a position with the Clint ditch as alcaida, and Sam Carr, Jr., is filling the same place on the Salina valley. He said:

### MAKES SUCCESS WITH BEES IN THE VALLEY

Pecos, Tex., Feb. 15.—L. J. Tuttle, of Baltimore, while in Pecos gave the following as his experience in the bee business in the Pecos valley. He said:

"I secured 1,500 pounds of the very choicest honey, besides leaving an abundance of bees for the bees, to begin the balance of the winter on. To begin with, some of the colonies were rather weak and did not produce as much honey as they should have or will this year. The remarkable part of the investigation lies in the rather startling fact that besides the honey secured, the bees increased to the extent of 21 new colonies."

### GARBANZO CROP IN SONORA PROMISES TO BE GOOD ONE

Guaymas, Son., Mex., Feb. 15.—The farmers in the Yaqui and Mayo valleys are actively engaged in the harvesting and marketing the garbanzo crop of this year. It is expected that the yield will surpass the output of last season.

California capital is becoming interested in developing a garbanzo industry. Hitherto practically all of the peas have been beaten out in a very crude manner.

### RUIDOSO FARMERS GET READY FOR PLANTING.

Ruidoso, N. M., Feb. 15.—J. L. Purdy has a force of men at work on the S. W. Johnson ditch preparatory to the spring irrigating. The farmers are all busy getting their spring plowing done. R. E. Wingfield is pruning the S. M. Johnson orchard.

### Try This Home-Made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually made a deep seated cough inside of 24 hours. Splendid, too, for whooping cough, croup, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasantly.
